Profile

Aspiring Software Developer with a strong foundation in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in building web applications and solving complex problems using efficient and optimized approaches. Experienced with C++, JavaScript, and MySQL, and currently expanding skills in Artificial Intelligence and Machine Learning. Seeking opportunities to contribute to real-world software projects and develop scalable, high-performance solutions.

Education

Gandhi Institute of Technology and Management July 2023 – April 2027
B.Tech CSE – Visakhapatnam, AP
GPA: 7.62/10

Technical Skills

Programming: C++, Python, JavaScript, SQL
Web Development: Next.js, React.js, Node.js, Express.js, Tailwind CSS
Databases & Tools: Firebase, MongoDB, Git, GitHub
Core Fundamentals: Data Structures & Algorithms, Operating Systems, DBMS

Projects

SmartFare — Full-Stack Flight Platform

- **Full-Stack Development:** Engineered a booking engine with Next.js and Firebase, featuring real-time search, authentication, and database persistence.
- **Payment Integration:** Implemented Stripe India and a custom Net Banking portal to manage secure end-to-end payment lifecycles.
- **Automated Workflows:** Integrated Resend API and jsPDF to automate branded email confirmations and dynamic ticket generation with QR codes.
- **UX Optimization:** Enhanced performance with Skeleton Loaders and optimized data-fetching logic to improve search speed.

Certificates

C++ & Data Structures and Algorithms Apna College	<i>In Progress</i>
– Focused on algorithmic problem-solving, memory management, and optimization techniques.	
Full-Stack Web Development Apna College	<i>In Progress</i>
– Studied modern web architecture, responsive design, and backend database integration.	
Data Science and AIML Apna College	<i>In Progress</i>
– Studying data analysis techniques, predictive modeling, and machine learning algorithms.	
Internet of Things (IoT) Infosys Springboard	<i>Completed</i>
– Completed training on IoT fundamentals, connected systems, and real-world applications.
